

GRANULAR ACCESS RIGHTS

The Joy of Use

TYPO3 PERFECTLY ADAPTS TO YOUR COMPANY STRUCTURE

No sharing of sensitive data

Do you need to **integrate a PR agency** without giving them full access to your backend?

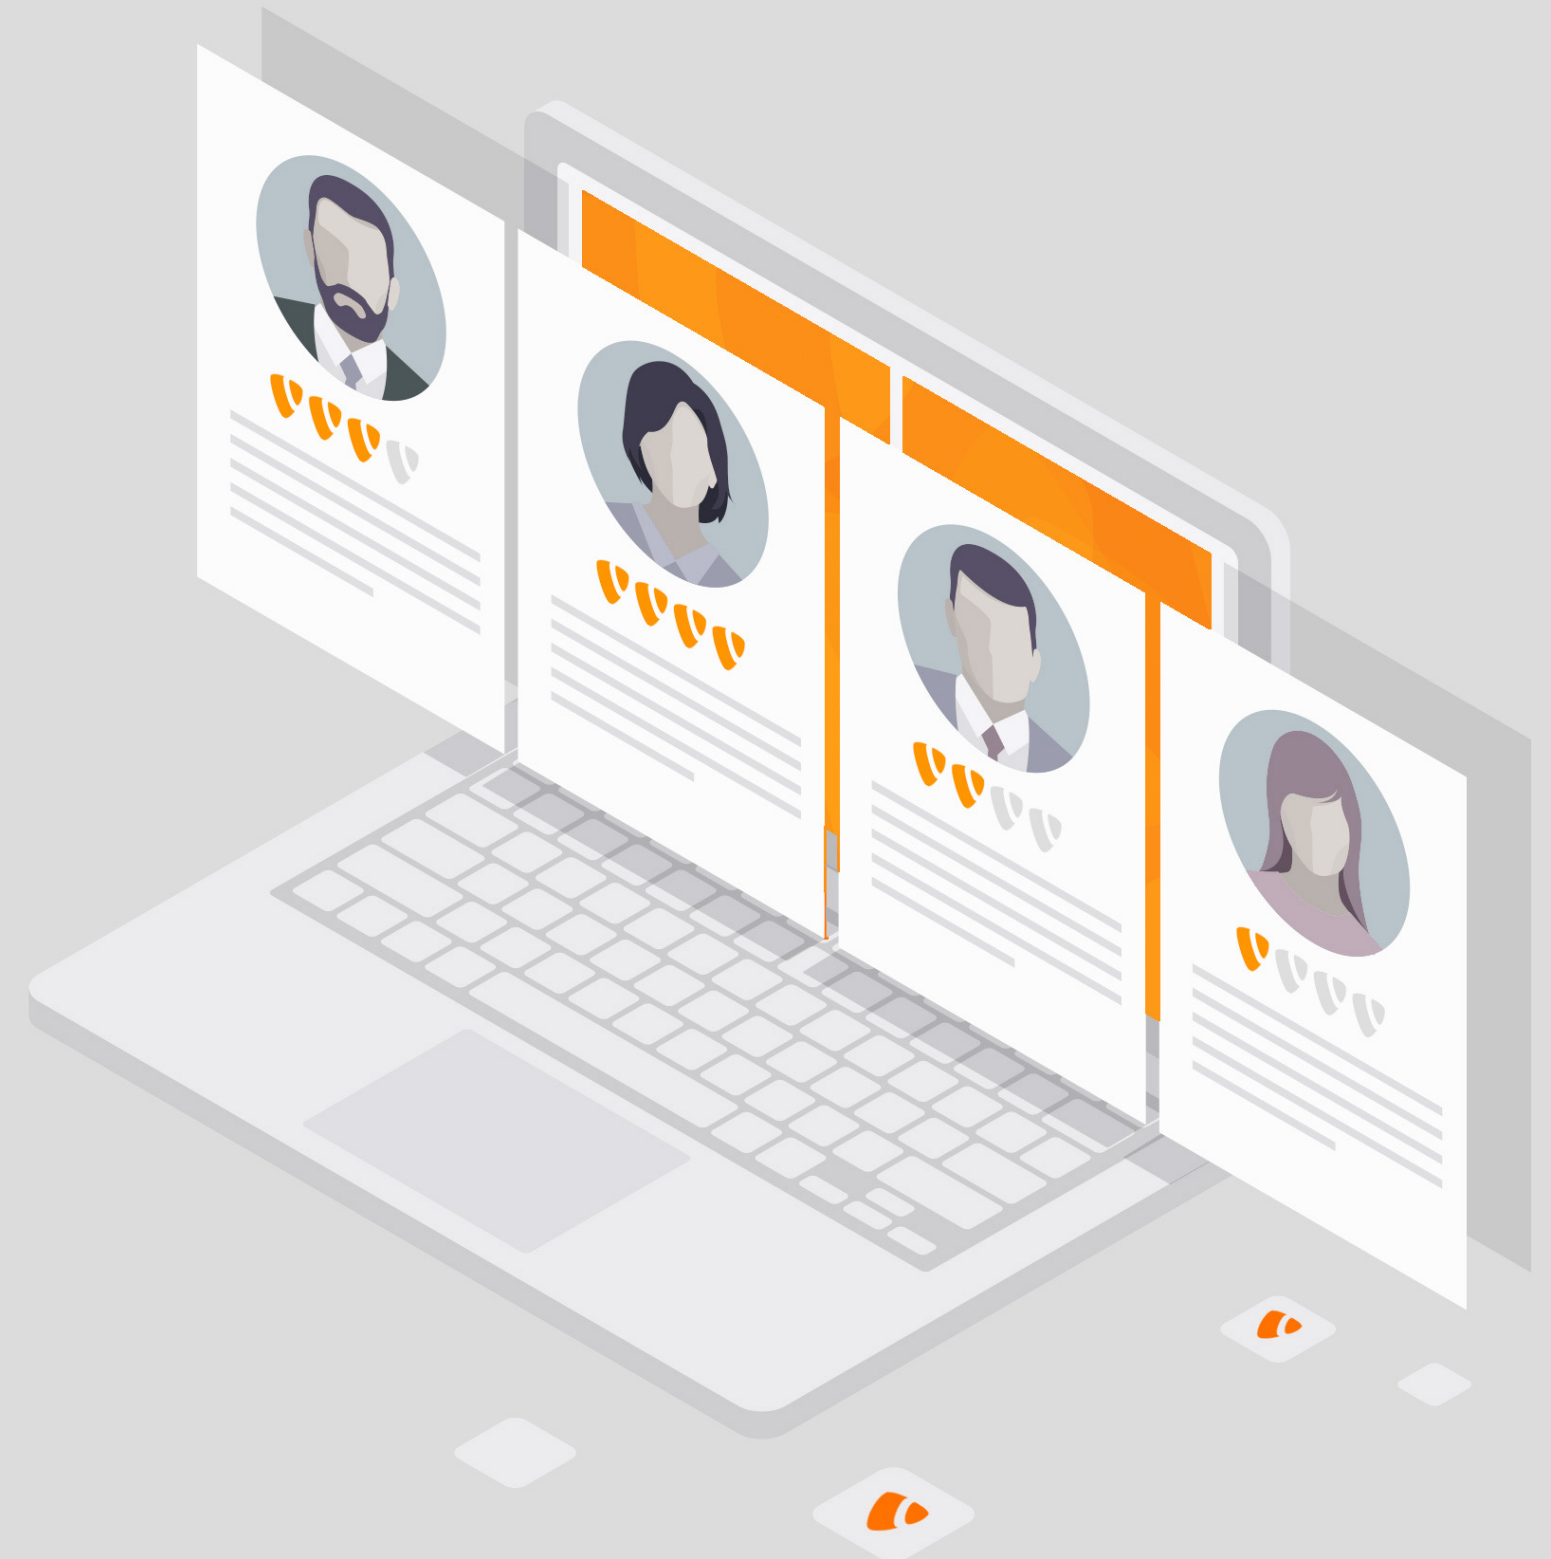

- TYPO3 can give rights to **restricted** news **areas** and extensions of the website.

No excuses for editors

Do you want to **include more employees** in the **editorial process**?

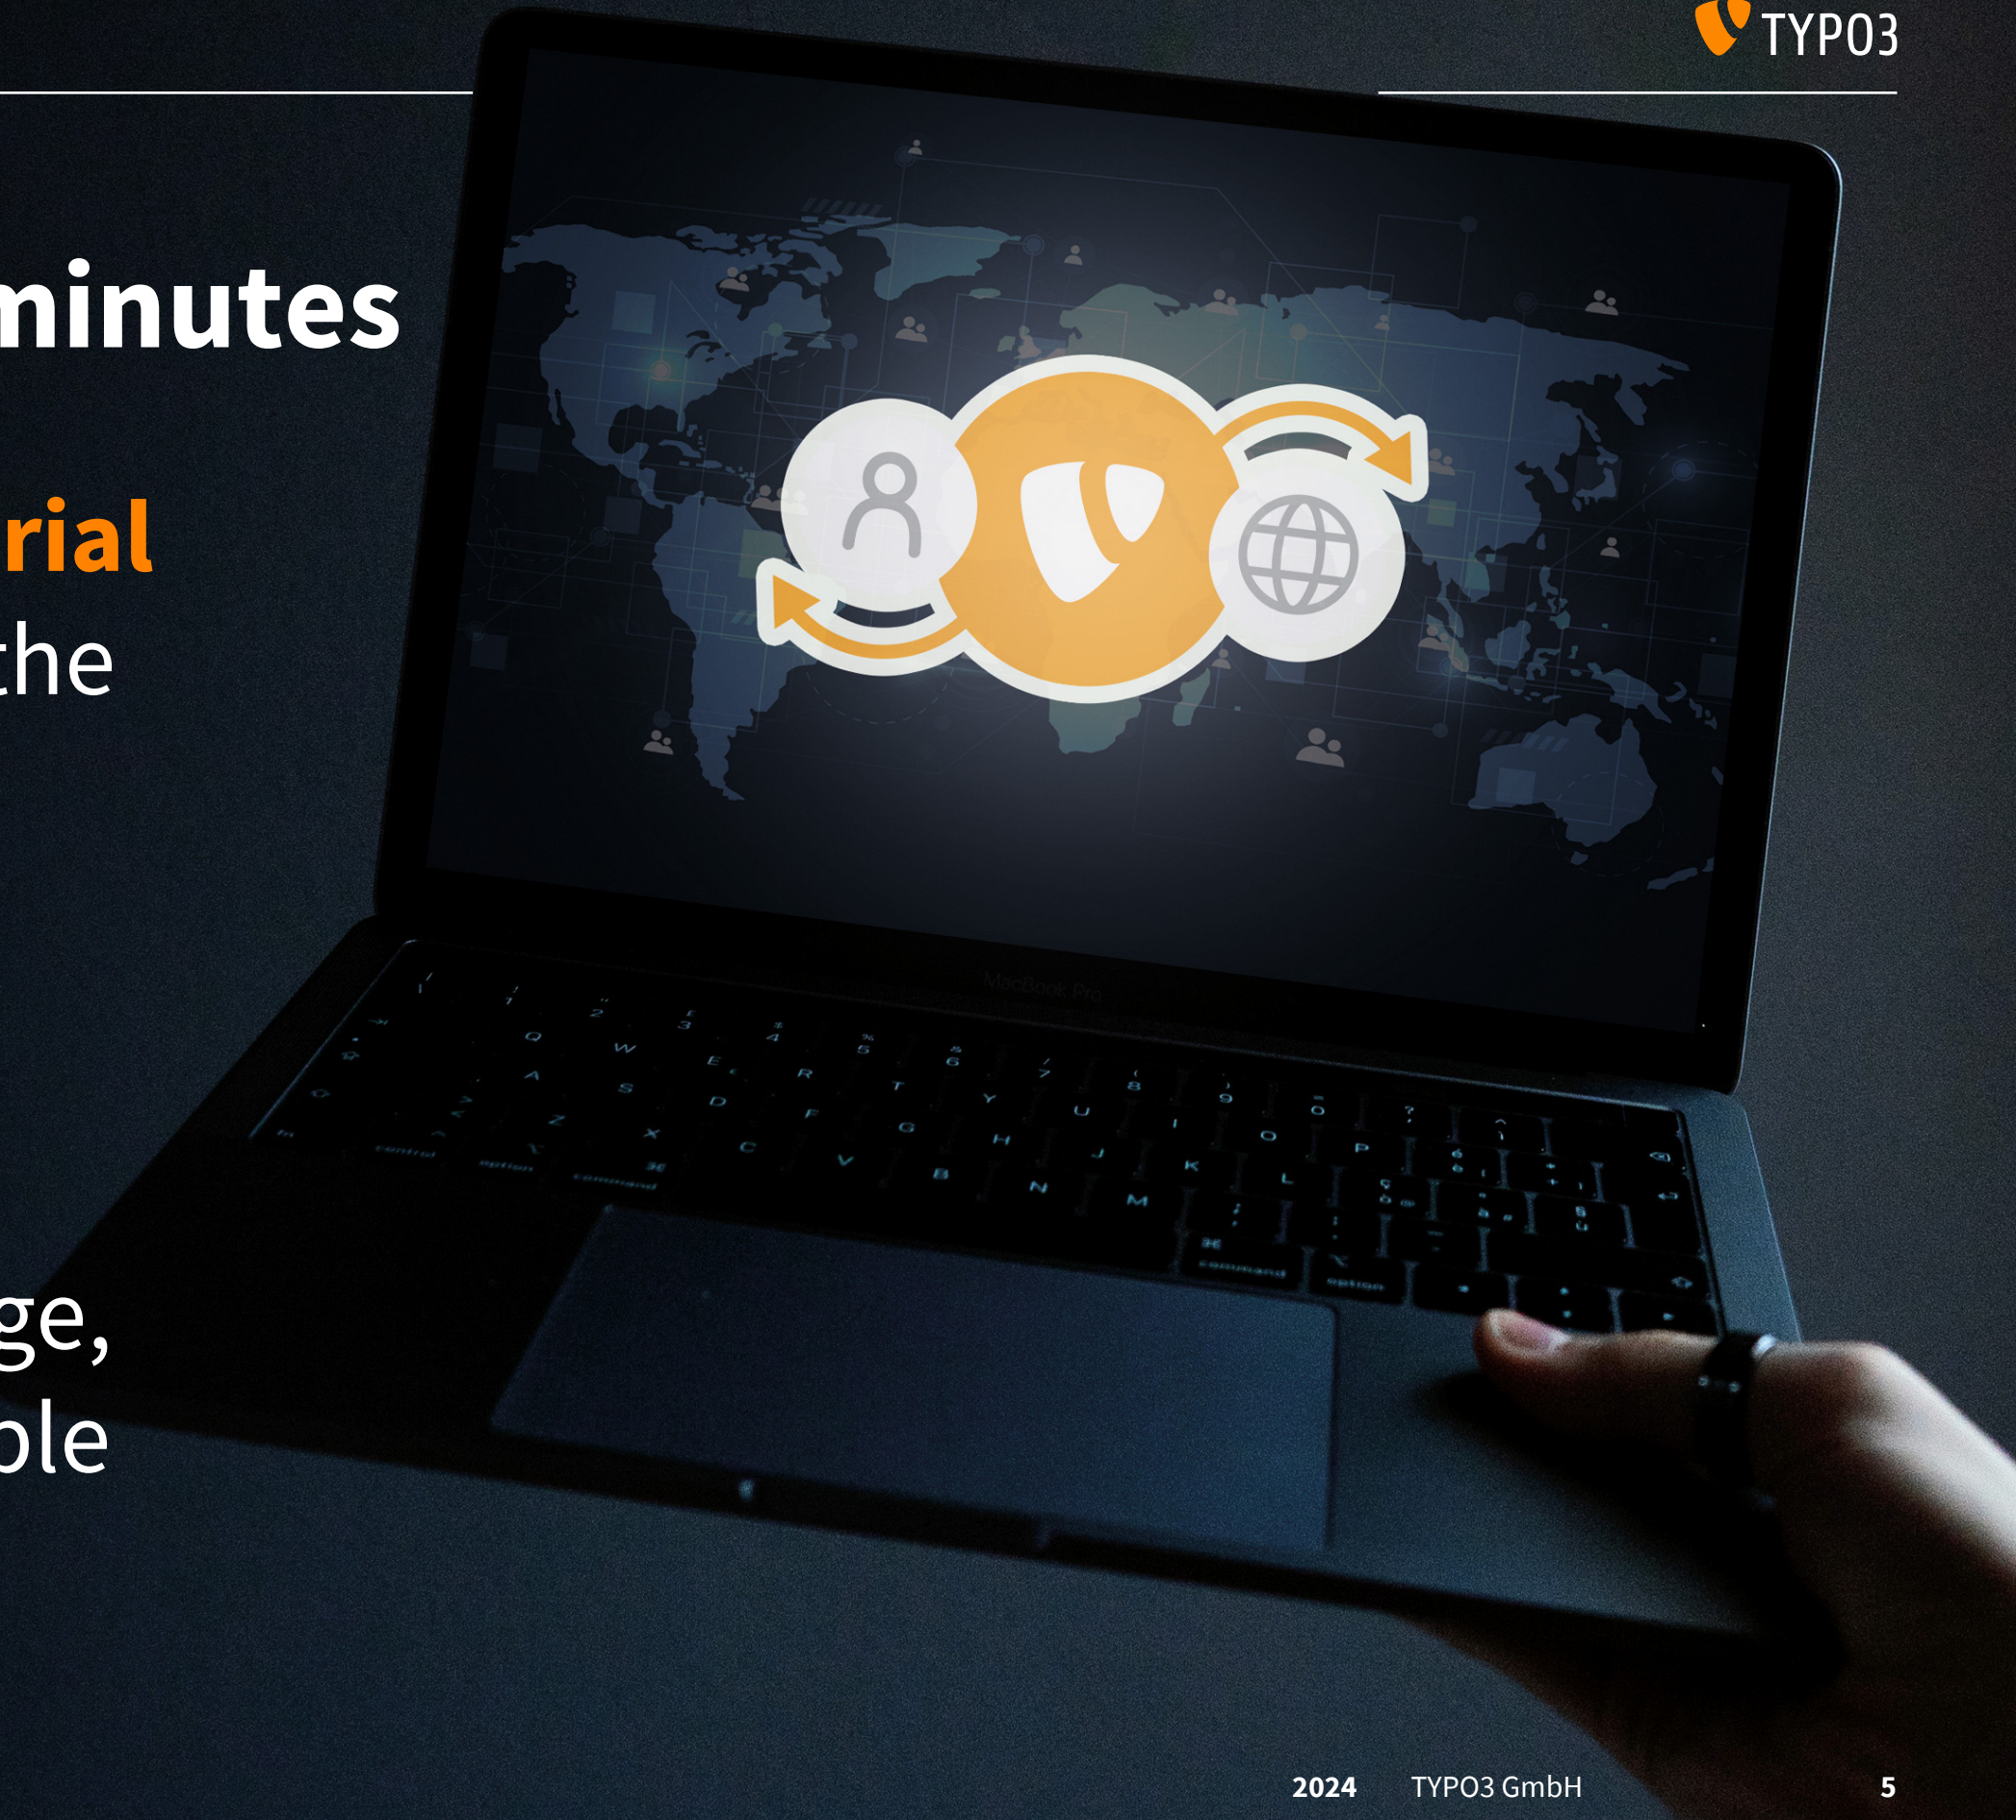

- TYPO3 allows you to **customize the user interface** regardless of the experience level of your employees.

Set-up a global team in minutes

Do you need to **manage editorial teams** in different **regions** of the world?

- Customize the **editorial experience** of each team. Adapting it to their language, pagetree levels and available digital assets.

Key Benefits of Granular Access Rights

Empower Security and Efficiency

- **Define restriction** of modules, pages or content elements to completely suit your needs
- **Set up roles** for your team. Ensure that everyone can access to exactly what they need and nothing else
- **Fast onboarding** for new collaborators with streamlined clean interfaces and no distractions
- **Easy setup for user groups and teams,** allowing for adaptation of your multisite and multilingual setup globally
